This application is in condition for allowance except for the presence of claims 23-35 to claims corresponding to Group II non-elected without traverse. Accordingly, *claims 23-35 have been cancelled.*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Basch and Busto references pertain to devices for making drinks of superimposed liquids of different densities.

The following is an examiner's statement of reasons for allowance: none of the prior art of record, alone or in combination, teach Applicant's invention of a method for dispensing a beverage of two or more superimposed liquid layers comprising *pumping* a metered amount of a first concentrate (first density layer) to a container, and *pumping* a metered amount of a second concentrate, *diluting/mixing it with water* (second layer of less density), to the container thereby forming stable layers of different density as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven O. Douglas whose telephone number is (571) 272-4885. The examiner can normally be reached on Mon-Thurs 6:00-6:30.
